Welcome

The 10th IEEE Digital Signal Processing (DSP) Workshop and the 2nd IEEE Workshop on Signal Processing Education (SPE) was jointly held at Callaway Gardens in the southernmost foothills of Georgia, October 13-16, 2002. The DSP workshop was designed to unite top researchers from around the world to discuss novel signal processing theories and methods. The SPE workshop was devoted to discussions on novel theories and methods for signal processing education. Both workshops featured plenary speakers from prominent individuals in the signal processing community as well as technical sessions for presenting contributed papers.
